## **PRODUCT DESCRIPTIONS**

### **REGIMEN™...a Prescription for Compliance CD Pack**

The CD Pack contains two CD's and is tailored to assist your practice in attaining HIPAA compliance. One CD contains all of the forms, policies, procedures, contracts, job descriptions, FAQ's, background information and the testing process required by the HIPAA regulations. All of these documents are easily customized with your office information and ready to print and use. The other CD, "REGIMEN.-An Introduction to HIPAA" is an educational program designed to satisfy the training requirements of the HIPAA regulations. It is a fast-paced, multi-media presentation. This educational CD provides a comprehensive introduction to HIPAA and why it has become law and most importantly, how it affects your organization. Three hours of CME credits are available for an additional fee. The CD Pack also includes complete product updates for 12 months from the date of purchase and is priced per office location. After the first year, the renewal fee is only \$125 per office location. This provides your office with continued updates to the HIPAA rules, including new and revised forms, policies and procedures as well as training CD's, as the laws change or new laws are finalized.

### **REGIMEN™...a Prescription for Compliance Product Binder**

#### **(Only available with purchase of CD Pack - not a stand alone offer)**

The Product Binder is a hard copy of the forms, contracts, policies and procedures contained in the CD Pack referenced above. For those offices that prefer paper documents, this product is printed, collated, indexed, tabbed and bound in a three-ring binder for easy reference and use. All of the documents come personalized to your practice, so they are ready to use upon receipt. The binder is \$125 and is only available as an add-on to the CD Pack purchase. (The binder does not contain all of the reference material contained on the CD.)
